

Sticky Sticky Notes! (TypeScript, React Native) — A digital pinboard app for tasks and reminders. Built for both Android and iOS with Expo, and is listed on the Apple App Store. Check it out here:

<https://apps.apple.com/us/app/sticky-stacky-notes/id6751756088>

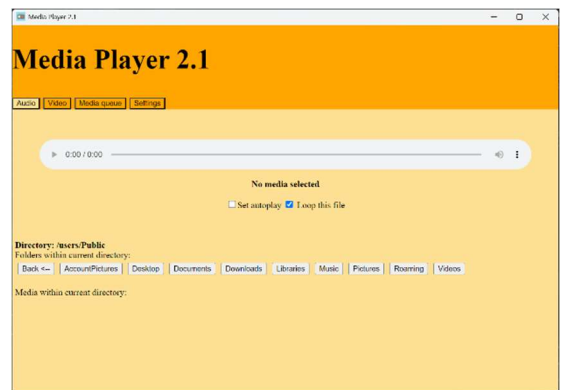

Calculator app (Python) — calculates input with the help of a parsing script that I wrote. The app UI is designed with Tkinter, and built with Auto PY to EXE for both Windows and macOS.

Rhymo-Tiles (HTML, JavaScript) — offers young readers an opportunity to practice rhyming by matching words. This website is available online.

Check it out here:

<https://rhymo-tiles.web.app/>

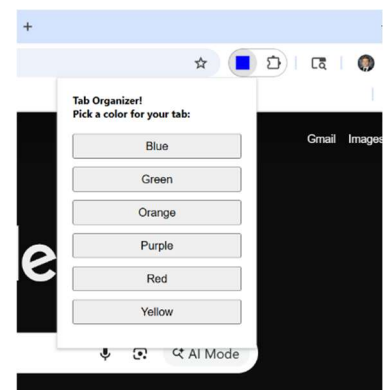

Media Player 2.1 (HTML, JavaScript) — A simple app to locate and play music and video media. Supports building media queues and autoplay features! Designed with Electron, and built for Windows with Electron-Builder.

HTML editor (HTML, JavaScript, Python) — A simple HTML and JavaScript editor with built-in examples. Programs written in the editor can be downloaded for use in an internet browser! The Windows build is packaged with Auto PY to EXE, and the website is available online. Check it out here:
